MODE

MODULARITY AND DESIGN

The MoDe fully automatic coffee machine packs the latest Egro technology into a compact design. High performance, reliability and versatility are combined in a sleek design with ergonomic solutions to improve operators' work and speed up service. MoDe's touchscreen interface has been developed to customise each recipe on the menu with a few simple steps and to facilitate customer interaction when working in self-service mode. Designed for all establishments in the Ho.Re.Ca. sector with medium consumption, MoDe is the ideal solution for those who want a quality cafeteria menu with coffee drinks, fresh milk and instant products. Configurable with different milk systems and fridges, add-ons, payment systems and optional extras, MoDe can cater for every need.

⊕ HIGHLIGHTS

7" HD TOUCHSCREEN

Select your drink, navigate through the setting menus and upload video images to customise your touchscreen. It only takes a few taps to complete each operation.

EASY MAINTENANCE

The internal components are grouped into modules according to their function in order to facilitate ordinary maintenance operations and speed up service interventions.

COMPACT DESIGN

High-quality components, a built-in hoppers and other space-saving solutions provide you with maximum technology in minimum space.
