# S30 CS11 COFFEE MACHINE – CLEANING INSTRUCTIONS

Wipe the inside of the hopper with a dry cloth to remove any coffee oils in the hopper. Wash weekly. To remove the hopper, pull the slide towards yourself and lift hopper up. Reverse to refit hopper.

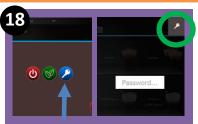

Remove the drip tray daily, empty any coffee waste that has built up and wash in warm water and washing up liquid, then dry completely.

When replacing the drip tray ensure it is pushed fully in place, you should feel a slight click and fits firmly.

Find the soft touch button located behind the machine screen, in line with left hand hopper (see image 1) and press the button.

Select the Blue Key Button, then select key symbol in top right corner of next screen.
You do not need to enter a code.

Select the water drop icon on the top left of the touch screen.

Press the 5<sup>th</sup> Icon (3 symbols) from the left it will say complete wash once selected.

Press the green wash button to start the selected clean.

Confirm the cleaning selection by pressing the green tick

Lift the cleaning flap and place 1
Ecocleaner Tablet (remove the tablet from the wrapper) into the Tablet Inlet. Ensure the cleaning flap is fully closed.

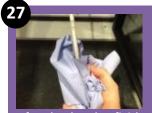

Fit the cleaning box into position under the dispense head and pour 1 dose 50ml of EcoJetSan Liquid into the container.

Connect the milk pipe from the fridge to the cleaning box, make sure you keep the filter in place. Confirm on the screen

During the cleaning program you can tell the machine to power itself down by pressing the Red Power switch and making it green

After the clean has finished wipe the exterior of the milk pipe with a sanitised paper towel. Wipe the inside of fridge with sanitised paper towel

If you didn't use the auto turn off at the end of cleaning cycle press the soft touch button and select the red power button.

DO NOT USE POWER SWITCH BEHIND DRIP TRAY

To turn on press Soft Button once
